

IKS Sample and Display Programs

Samples and displays are one of the most effective tools you can use to successfully sell IKS products. Below is a description of our sample and display programs available to all our customers.

Sample Program

We will provide you with sample mini fronts (SB-mini) in each of the lines that we offer and one sample cabinet (B15) for \$120. Please specify which style/color B15 you want when ordering samples. Samples must be paid for before being shipped unless you have established a credit account. The \$120 will be credited back to your account when you place your first cabinet order(s) over \$500.

Samples are sent with free freight to commercial addresses only. If you would like your samples sent to a residential address, the surcharge for residential deliveries will be charged on your invoice.

Additional minis may be purchased for \$25 each with shipping added. Additional B15's (limit 1 per style) may be purchased for \$25 each with shipping added (\$25 unless shipped with an order). Charges for additional samples will not be credited back to you.

Display Program

Please contact your sales representative or the IKS office and we will guide you through the display process. We have two programs based on the size of your showroom display.

All showroom displays will be sold to you at 50% off your normal price. The discount will appear as one amount on your invoice, not on each individual item. Freight charges apply. Photos of your IKS display in your showroom are required to receive discount and to confirm installation. Photos are to be submitted within 60 days of receipt of display. **Failure to produce photos of the display installed in the showroom will result in you being invoiced full price for the cabinets.**

Displays over six feet in length are eligible for a full rebate for the cost of the cabinets in the showroom display. The rebate process will begin after the pictures are received and approved. You will be given a 10% discount on each regular order (cabinets only) that you purchase. These credits are available until the 50% display cost has been credited back to you or for up to one year from the ship date of the display, whichever comes first. These discounts are available for pre approved displays installed in an established dealer showroom.

Displays shorter than six feet in length do not receive any further rebates.

Please Email display photos to misty@internationalkitchensupply.com. Photographs of your display may be used by IKS on our website, flyers, or other promotional materials. IKS may send a professional photographer to your location to take pictures of your display at no cost to you.

Please remember that shipping costs are not part of the display discount or rebate program. Feel free to contact us if you have any questions or if you need help designing a display.

Decorative Organizers

1 Waste Basket Pullout insert can be added to your display order to be eligible for display pricing.

Above policies are subject to change.

Thank you,
Your friends at IKS
